

Senior Risk Analyst or Risk Analyst

Deadline:
30-04-2025

Contact person:
Ainura Bizhanova

Position type:
Fuldtid

Location:
Københavnsvej, 81, 4000, Roskilde,
Danmark

Are you passionate about contributing to the green transition? Can you see the potential in joining a growth company, where change is a natural part of your everyday life and our shared journey? We are busy, so we are now looking for you to join our team.

At Momentum, we have a clear goal to reduce global CO2 emissions significantly and in the most sustainable way. With an innovative approach, we are at the forefront and are a central player on the market in the transition from fossil energy to clean energy sources such as wind and solar.

Your areas of responsibility?

You'll be part of our Risk Management team where you and your colleagues will be working to enhance our risk management capabilities across our renewable energy portfolio. Your primary focus will be analyzing and reporting on market risks in our European onshore wind and solar assets. You will be working closely with executive management in an informal and dynamic environment where your insights will play a key role in shaping our risk management evolution. In addition, your work tasks will include,

- Understanding the dynamics of the energy industry (within onshore wind and solar PV), identifying risks related to activities and reporting on compliance with the mandate set by the organisation
- Developing and optimizing quantitative risk analysis for our renewable energy portfolio, focusing on market, credit, and operational risks
- Assisting in performing regular risk assessments, monitoring, and reporting
- Conducting and improving production forecasting methodology
- Maintaining and improving our inhouse risk management system

Who are we?

We are a team of 60 passionate professionals based in Roskilde, and you will join our Risk Management department. As a member of the team, you will collaborate closely with talented, supportive, and dedicated colleagues. Your role will be integral in cultivating a robust asset pipeline and providing financial modelling support for valuation and development projects.

Momentum aims to be a sustainable workplace and has a strong focus on the personal and professional development, retention, and inclusiveness of our employees. We have a fruit/snacks and lunch scheme, health insurance and flexible working hours with work - life balance, with an option of working from home two days a week.

"Our team is agile and international, united by our strong analytical skills and curious mindset, both essential pillars guiding our decisions across the portfolio" says Interim Head of Risk Management Ainura Bizhanova

Who are you?

We are seeking a highly qualified candidate with

- At least 2-5 years of professional experience within energy sector with good understanding of the power market, ideally within risk management or market analytics
- Financial modelling skills (e.g. Excel for quantitative analysis, SQL or Python)
- A strong communicator with excellent spoken and written English skills is required.
- Good commercial acumen with stakeholder management capabilities
- Proficiency or interest in PowerBI is an advantage

We welcome applications from all individuals, regardless of age, gender, religion, or ethnicity.

Do you want to join the journey?

If this sounds like something for you, please send your CV to [_](#) and preferably as soon as possible, as we hold interviews on an ongoing basis.
